TARIFF REVERSION ENCOUNTERS DELAY

Democratic Senatorial Caucus on the Underwood Measure Deferred

LEADERS TAKING NO CHANCES

"Steering Committee" Called Into Action—Senators Will Be Bound By Pledge to Vote for the Bill as Approved

Washington, June 12.—The Democratic "steering committee" of the Senate was called into action late today to clear the way in that body for the tariff revision bill. As a result of the meeting and of reports received from the Finance committee members of the "steering committee" said tonight they believed the tariff bill would get back into the Senate before end of next week.

Senator Kern called the party manager to get after reports had become general that the Democratic tariff caucus would have to be postponed until the Senate's West Virginia coal strike investigation had been completed. It was determined to attempt to secure an agreement between the Senate and House on Sunday Civil bill now in dispute; to and Senator Jones' single-handed filibuster, which has delayed Senate business for over a week, and to remove all other obstacles to early action on the tariff.

The "steering committee" was informed by Senator Thomas, who is also a member of the Finance committee, that the tariff bill could be completed and returned to the Senate next week. Several other members of the Finance committee, however, expressed doubt tonight as to the probability of this being accomplished.

Would Defer Caucus

Recommendations were made early in the day by several Democrats prominently identified with the administration forces that the Senate caucus be deferred until Senators Swanson, Shields and Martine had returned from their work with the investigating committee. The Finance committee's narrow margin by which the administration forces control the Senate, in support of the President's wool and sugar program makes it necessary, in their opinion, to have all Democrats present at the caucus and it is possible that the Democratic members of the committee will decline to go to West Virginia to participate in the caucus. It is proposed that the caucus shall be a binding one, pledging every Senator to vote for the bill as approved.

Troublesome Schedules

Free sugar in three years and free wool, the most troublesome schedules of the tariff confronting the party, advanced another stage today without suffering alteration, when the Democratic members of the Finance committee agreed to support the schedules, and that the bill can be passed with the vote of the vice president.

Startling Proposition

John Sharp Williams, chairman of the sub-committee in charge of the administrative features of the Underwood bill, startled majority members of the Finance committee today when he proposed that a commission be appointed to study the entire question of tariff administration, and in the meanwhile the administrative provisions of the Payne-Aldrich law be permitted to stand in the new Democratic bill.

The suggestion did not meet with approval of the committee members and Senator Williams and his colleagues on the Finance committee, Senators Shively and Gore, were instructed to continue their work of revising the administrative provisions of the Underwood bill.

The sub-committee has encountered difficulties with the provision in the Underwood bill requiring foreign manufacturers to submit their books in cases of disputed valuations, and the provisions designed by the Ways and Means committee to prevent undervaluation. The committee also has had trouble in endeavoring to modify the proposed amendment which would give the Secretary of the Treasury authority to proclaim general import values.

To Work Out Problems

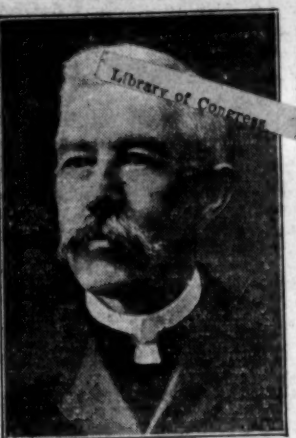

After many weeks of studying these questions Senator Williams had concluded it would be wise to turn over the whole tariff administrative section to a commission to consist of three Senators, an officer of the customs division of the treasury and an official of the Department of Justice and with custom affairs. The Finance committee majority, however, determined that the committee itself should work out the problems at once. The sub-committee will make another report tomorrow.

TEMPORARY RESPITE GRANTED.

Jack Johnson Will Have Five Days of Freedom.

Chicago, June 12.—Jack Johnson, negro heavyweight prize fighter, obtained five more days of freedom when Federal Judge Carpenter today granted him his counsel until June 23rd to prepare a writ of error to bring the negro's case before the United States court of appeals. Johnson was sentenced to a year and a day in the State penitentiary when he was convicted of violating the Mann white slave act.

St. Andrew's, having captured the banner for the best work accomplished during the past year. The First Presbyterian church, of Wilmington, held the banner until the convention this year.

PRESIDENT'S VISIT UNHINDERED

Wilson Makes Another Trip to the Capitol—The Senators Cut Short.

Washington, June 12.—President Wilson made another trip to the capitol today but most of the Senators whom he intended to see were absent, playing golf, watching the baseball game or otherwise bent on recreation as the Senate was not in session.

After the President did not send word he was coming, deciding on the spur of the moment to go to his "other office" as the President's room in the capitol is being called after he had started away for an afternoon's ride. He had a list of 21 Senators whom he hoped to talk with about the appointment of an industrial commission.

Only 6 answered call when he arrived and the President remained but a little while. During that time, however, besides talking appointments he discussed with Senators Chamberlain and O'Gorman the status of the arbitration treaties which are up for renewal, and which he still hopes to be renewed.

DIPLOMATIC NOMINATIONS.

Names of Ambassadors Will Go to Senate Today.

Washington, June 12.—A large list of diplomatic nominations were prepared at the White House today, and some of them will go to the Senate tomorrow. Those expected to be named tomorrow are Thomas Nelson Page, of Virginia, to be ambassador to Italy, and William E. Gonzales, of Columbia, S. C., to be minister to Cuba.

DR. MERIWETHER DEAD.

Noted Asheville Surgeon Dies After Operation.

Asheville, N. C., June 12.—Following an operation for appendicitis on Monday, Dr. P. T. Meriwether, a noted surgeon, died early today at his hospital here. Dr. Meriwether was a member of a prominent Kentucky family, and was commissioned lieutenant in the United States army.

HORRIBLE WRECK OF EXPRESS TRAIN

Four are Killed and Many Injured in Frightful Rear-end Collision

DANGER SIGNALS DISREGARDED

Engine Crashes Into Pullman Car Taking Death Toll—Passenger Station at Stamford a Scene of Carnage

Stamford, Conn., June 12.—Four persons were killed and many injured, some seriously, as the result of a rear-end collision on the main line of the New York, New Haven and Hartford Railroad, opposite the local passenger depot at 4:46 o'clock this afternoon when the second section of the Springfield express, westbound, crashed into the first section which was just leaving the station.

The Death List

The dead are:
Mrs. Edward J. Kelly, Winthrop, Mass., wife of land agent of Canadian Pacific Railway.
Frank Canfield, Springfield, Mass.
Mrs. Bowers, Springfield, Mass.
Everett Hasley Woodruff, Flushing, New York.

Ten are seriously hurt.
The engine of the second section ploughed half way through the Pullman car Skylark, the last car on the first section. In this car there were 31 passengers and practically all of them were injured.

Signals Disregarded

According to an official statement by the railroad the indications are that the engineer of the second section ran past danger signals.

The Springfield express was the same train that was in the wreck at West Port, Conn., last October, in which eight persons were killed and scores injured. This wreck was caused by the engineer running past signals.

Wreck Took Fire

Simultaneously with the crash the wreckage took fire and the city fire department was called out. The blaze was easily extinguished, however, and the work of rescue began at once.

Early arrivals on the scene found Rev. Anthony Berlier, a Catholic priest, of New York, coolly directing the work of rescue, and refusing to go to a hospital until others more seriously hurt, had been taken care of. Telling of his experience he said:

"There was no warning, just a smash and the next instant the whole car was topsy turvy. Men and women seemed to be almost suspended in the air and there was a mass of everything conceivable flying about at random. Then all seemed to settle except the fire in the box that soon burst into flame. Women's screams of helplessness and terror and the deeper cries of men, some in mortal agony, filled the air."

Later Report

New York, June 12.—An official report given at the office of the New Haven road here tonight said that the Springfield express, on the second section, ran past both the distance and time signals, each set at danger, and was going 15 to 20 miles an hour when it struck the first section.

THE OLINDA ARRIVES

Docks at Savannah With Fire Extinction.

Savannah, Ga., June 12.—The Munson Line steamer Olinda, docked here at 6 o'clock this evening having extinguished the fire in her hold. The officers say that a thorough survey will be made of her condition tomorrow to determine the amount of damage done by the fire. As soon as possible the vessel will proceed to her Cuban destination.

New York, June 12.—While the steamship Olinda with a fire in her hold was signaling for help off the Georgia coast last Monday, her sister ship, the Curtiba, was only a few miles away drifting helplessly in a terrific storm. The Curtiba reached this port today about the time the Olinda was reported approaching Savannah.

Passengers on the Curtiba said that for 12 hours she was adrift while the engineers struggled to repair the machinery damaged by the explosion of a high pressure valve. Finally a make-shift sail was rigged up and the vessel was able to make port.

While this was happening the report in New York was that the Curtiba was standing by the Olinda, giving assistance. The Curtiba with 35 passengers and a cargo of fruit, was bound hither from Cuban ports. The Olinda was from New York, headed for Cuba. Both vessels are chartered by the Munson Line.

DISSENTION AMONG DELEGATES.

Woodmen Have Lively Discussion Over Newspaper Article.

Jacksonville, Fla., June 12.—Dissent among the delegates to the biennial convention of the Woodmen of the World was manifested at today's session when E. W. Adams, State representative of Florida, took exception to an interview in a morning paper in which Sovereign Adviser Fraser, of Texas, was quoted as criticizing the Florida delegation's opposition to Sovereign J. C. Root. Adams declared the sovereign camp had discriminated against Florida members.

DISSOLUTION PROCEEDINGS

Attorney General Opposes Giving Union Pacific Extension of Time to Dispose of Southern Pacific Holdings

St. Paul, Minn., June 12.—Attorney General McReynolds served notice today that the government was opposed to giving the Union Pacific Railroad any further extension of time within which to dispose of its holdings of Southern Pacific stock as ordered by the Supreme Court. In doing so he made known to the railroads, attorneys and to United States Circuit Judges Sanborn, Hook and Smith, at a hearing in the dissolution proceedings his objections to two of the latest plans proposed by the railroad for getting rid of its \$125,000,000 worth of Southern Pacific stock.

A new plan was proposed for the disposition of almost a third of the Southern Pacific stock held by Union Pacific. This plan provided for trading Southern Pacific stock to the Pennsylvania Railroad for the latter company's holdings in Baltimore and Ohio.

The court took the whole case under advisement. No intimation was given whether the plans submitted would be approved, or whether the railroad would follow the attorney general's suggestion and attempt to dispose of the stock itself through the medium of a receiver or suggest a plan agreeable to the government.

McReynolds made no intimation as to whether the plans submitted would be approved, or whether the railroad would follow the attorney general's suggestion and attempt to dispose of the stock itself through the medium of a receiver or suggest a plan agreeable to the government.

McReynolds declared he could see no objection to the proposed exchange of the land. The \$25,000,000 worth of Southern Pacific stock, a little less than one-third of its total holdings, for Baltimore and Ohio stock held by the Pennsylvania Railroad Company, and which was an argument in behalf of free sugar, also been printed as a public document and circulated under the franking privilege. He did not say, nor did the committee ask why the frank was so used.

Mr. Palmer said that the beet men had spent about \$160,000 in their campaign against free sugar. Since 1902 about \$50,000 had been used since last November and about \$14,000 of that amount since the beginning of the present session of Congress. Much of it had been spent in publicity work in printing, salaries and a good sized sum in motion pictures. He said that the beet producers in his association were assessed about five cents per ton, he thought. The last assessment was made in April, bringing in about \$18,000 and the next one in February about \$17,000.

"When did you make those assessments?" asked Senator Reed.

"We needed money to keep the committee in trying to find out all the details of how 'sugar at a glance' came to be printed as a public document. Although Mr. Palmer was grilling for three hours on practically nothing else, when he left the stand committee said that the beet men had much in the dark as they were when the pamphlet was first mentioned.

Palmer said that when Senator Lodge made a speech on sugar on July 1912, the charts were subsequently used in the pamphlet were on the walls of the Senate chamber. Senator Lodge secured the permission of the Senate to have them printed as a public document. Accompanying these charts, Mr. Palmer declared, were certain printed sheets containing sugar statistics. Questioned by members of the committee the witness said that after the charts had been sent to the government printing office and printed in black and white had been made of them, he had discovered they were not suitable for publication. He had therefore, sent them to a private printer, and had had them prepared in a fashion he thought suitable. This, he maintained, was done with the knowledge of Senator Lodge, and he considered that he was acting for the Senator in the matter.

Members of the committee expressed surprise that any one should in any way change something authorized to be printed by the Senate. They developed that the permission was secured by Senator Lodge for printing on July 1912, and that one of several issues of "Sugar at a Glance" referred to an order of the Senate on August 1st, in the same matter.

The second order referred to data prepared by Truman G. Palmer, and purported to be signed by Charles G. Bennett, then secretary of the Senate. Mr. Palmer said he supposed that the order had been made, and that he got it in the proofs of the charts from the printing office. The Congressional Record of August 1st, according to Senator Cummins, showed no such order nor did the Journal of the Senate, nor the files in its document room.

"You substituted at the government printing office, documents not received from the clerk of the Senate this privately printed copy?" said Senator Reed.

"I don't think that is a fair statement," said Palmer. "There was no subterfuge; there was nothing underhand; no one was deceived. All was open and above board, and I want to find out about this," said Senator Cummins. "It is a rather serious matter to forge a signature of the Secretary of the Senate to an order that never was made."

The committee finally dropped the question with the expressed determination to pursue it further and investigate books and records of every sort to get the information they seek. Senator Lodge will be heard in explanation of his desires to appear.

CIRCULATED FREE SUGAR LITERATURE

Distribution Accomplished by the Use of Senators' Franks

THE LOBBY INVESTIGATION

Truman J. Palmer Offers Sensational Testimony Before the Investigating Committee—Unauthorized Changes.

Washington, June 12.—How the government printing office and the Postoffice Department helped in the fight against free sugar through the use of Congressional franks for sending anti-free sugar "literature" circulating throughout the land was brought out today by the Senate lobby investigators.

Truman J. Palmer, Washington representative of the United States beet sugar industry on the stand the entire day and the object of a sweeping cross examination, testified that more than 1,500,000 copies of arguments in behalf of beet sugar had been turned out by the government printing office made public documents by order of Congress and had ridden on the franks of Senators and Representatives to the ends of the country, postage free.

"Sugar at a glance," prepared by him, he said, had attained a circulation of 320,000 copies, the frank of Senator Lodge, of Pennsylvania, was used more than a million and a half. The printing of some of this number had been paid for by the beet sugar people, the witness said, but the rest had been printed at the expense of the government. He said that the beet men had spent about \$160,000 in their campaign against free sugar. Since 1902 about \$50,000 had been used since last November and about \$14,000 of that amount since the beginning of the present session of Congress.

Editor Carolina Pythian

CAPT. THOS. D. MEARES.
Prominent Wilmington N. C. Who Becomes Editor of State Organ in North Carolina.

CAPT. MEARES EDITOR PYTHIAN

Wilmington Man Selected Manager of Grand Lodge Organ—Office of Paper to Clayton—Final Session Grand Lodge.

(Special Star Telegram.)

Winston-Salem, N. C., June 12.—After a most interesting session the Grand Lodge Knights of Pythias, Domain of North Carolina, adjourned at noon today to meet in annual session in Durham in June, 1914, that city having been chosen at the afternoon session Wednesday.

The feature of the closing session was the installation of the new Grand Lodge officers who were elected on Wednesday morning, the appointment of Past Grand Chancellor W. W. Wilson, of Raleigh, as State Deputy by Grand Chancellor J. D. Pridgen, of Durham; N. B. Alexander, of Fayetteville, fraternal correspondent, and the naming of various standing committees, etc.

It was decided to postpone the appointment of district and lodge deputies to give the Grand Chancellor time to consider and confer with those interested in the selection to be named. It is thought, however, that most of the present district deputies will be re-appointed.

It was decided to move the publication office of the official organ of the Grand Lodge, the North Carolina Pythian, from Charlotte, to the Pythian Home, at Clayton. Capt. Thos. D. Meares, of Wilmington, was chosen editor and manager of the journal. He succeeds Prof. J. G. Baird, of Charlotte, who has been editor and manager since the journal was established in 1890. The new office means that some of the boys at the Orphanage will be taught the printing business as many as in other North Carolinians.

The trustees chosen for the Orphanage are as follows: George L. Hackney, of Lexington, chairman; Charles Dewey, of Goldsboro; G. Herbert Smith, of Cronly; Thomas H. Webb, of Duke; J. D. Pridgen, of Durham; Chas. W. Horne, of Clayton.

There was no session of the Grand Lodge last night. The hall and time being given over to the D. O. K. K. This afternoon the visiting Pythians departed for their respective homes.

BRAZILIAN ENVOY AT CAPITAL

Dr. Muller Visits Washington and Inspects the Navy Yard

Washington, June 12.—Dr. Lauro Muller, the Brazilian envoy, today spent a busy 12 hours. Most before he was thoroughly awake he was waited on by a committee of navy officers and he took him on an inspection trip of the Washington navy yard.

"This is a rapid-fire country," said Dr. Muller, as he emerged from his private printing conference and awaited to take the party to the yards. The visit, however, was designated to be somewhat brief for the distinguished visitor was to be in the city for a few days, followed by visits to the capitol, the Library of Congress, and a score of public buildings later. The day was to be closed with a dinner in honor of the visitors by Secretary Bryan.

Dr. Muller talked with callers about the immigration of Japanese to Brazil.

"Some thousands of Japanese are coming into Sao Paulo, but it is not true that colonization agreements have been entered into between Japan and Brazil as governments," he said.

"In Brazil we are in the same position your State of California was 50 years ago, we need population. The lands in Sao Paulo State into which Japanese are coming are low, very good for the production of rice, but the people of Brazil will not go into them."

"We have not encouraged the Japanese to emigrate to our country. For years we have subsidized immigration but never the Immigration of Japanese."

everything done by the beet men in Washington. He said he supposed they had been talking to Senators and Congressmen. They don't live in glass houses. I have been free to tell them what I thought and to try to convert them and prevent the ruin which I believe will result from the passage of the bill in Congress."

Mr. Palmer's investigation will continue tomorrow.

The committee tonight subpoenaed A. G. Robinson, of Washington.

REFUSES TO SUBMIT RECORDS OF TRIALS

West Virginia Governor Refuses Request of Senate Committee

PROBING STRIKE CONDITIONS

Disclosure of Records Would be "Prejudicial to the Public Peace" Says Governor Hatfield. Conditions Reviewed.

Charleston, W. Va., June 12.—Governor Hatfield, of West Virginia, tonight declined to submit to the Senate Mine Strike committee the records of the trials before the military committee which took charge of the strike-ridden district of the State during the trouble this Spring. In a letter to the committee the Governor said that the findings of the committee in these cases had never been approved, the men had been released and he desired to keep the records for use in seeking indictments in the civil courts. To make them public at this time, he said, would be "prejudicial to the public peace."

Among the little miners' cabins, in the nooks and crannies of the West Virginia mountains the United States Senate sub-committee today sought the truth about the strike which has disrupted the State for more than a year. All day long, a special train carrying the Senators and the mining camps in Paint Creek and Cabin Creek.

Groups of mountain men and women with their children about them were startled and a little alarmed by the sudden appearance of the Senators, lawyers, mine operators, stenographers and newspaper men at the doors of their little homes. The business-like "company stores" gave up to the Senators lists of the high prices which was given as one of the causes of the strike and the dust-begrimed miners, bound to or from the drifts that gash the sides of the mountains were halted and questioned in the road.

As a method of securing definite testimony the all-day trip proved unproductive, but the committee was enabled to secure a first-hand view of the conditions in the field. Quiet reign throughout the entire district, so lately the scene of constant violence. The last of the State troops struck the mines and left the strike zone today, just as the committee's train pulled into Paint Creek Junction, where military headquarters had been maintained.

Today's trip was valuable," said Senator Swanson, chairman of the sub-committee when he reached Charleston at 9 o'clock tonight, because it gave us a bird's-eye view of the situation, and enabled us to fix the geographical outline of the country in our minds. It will facilitate greatly the examination of witnesses.

Throughout the entire trip the committee did not see a single disturbance or sign of disorder. Half-dressed strikers in the streets had been used as a form and bullet riddled cabins were the only signs the committee found of the state of virtual civil war which late existed.

At the head of Cabin Creek, Dakota, Kalford, Acme and Eskdale, the committee made stops and were shown housing arrangements of the miners.

The Governor's Letter.

Governor Hatfield's letter was presented to the committee at tonight's session.

"My attention has been called by the adjutant general," said the letter, "to submit to the committee the records and commission reports."

"With reference to the strike, I was induced into office March 4th, and as to conditions prior to that time I have knowledge only through the newspapers. Under my predecessor, military law was established in the strike zone three times. A commission was in existence when I came to office and about 80 prisoners were in jail. I wanted peace and harmony, as the situation seemed threatening."

With reference to the papers now in his hands, he said he had "never approved them and had ordered all of the prisoners released, despite the fact that I had independent evidence in the nature of voluntary confessions in the case of some. But for reasons of prudence I ordered the discharge of all. My object was to restore law and order, and I have been successful, as both sides have made mutual concessions."

"The committee probably will make no further efforts to secure the records of these trials."

Governor Hatfield issued a proclamation tonight raising martial law in the strike district, the committee was informed.

ALASKANS FACING FAMINE

Resulting From Delay in Passing Sundry Civil Bill

Washington, June 12.—Famine with only seal meat to keep the stars on Alaska, as a result of Congress' delay in passing the sundry civil bill, the Department of Commerce announced today. There are food supplies on the island for but a month longer and until funds are provided the department can send no more even if a vessel sailed from San Francisco at once it could not arrive before July 6th.

The sundry civil bill, defeated at the last session of Congress because of a provision exempting labor and farmers' organizations from prosecution with funds appropriated in it, is now in conference between the House and Senate with no prospect for early disposition. It contains an appropriation of \$75,000 for the Alaska Fisheries Service, funds for which have been completely exhausted. A statement issued by the Commerce Department describes the situation as grave.

MACKMEN WON FIRST CLASH

Defeated Cleveland Naps in Opening Game of Series—Senators Defeated Chicago—Yanks and Red Sox Won.

Connie Mack played host to the Cleveland Naps yesterday, and defeated his visitors in the opening game of the series, 6 to 1. Eddie Plank, who was chosen to pull off the initial game for the Athletics, held them scoreless until the ninth inning, when Joe Jackson put one in left field bleachers for a home run. Cy Falkenberg, the elongated come-back twirler of the Naps, suffered his second consecutive defeat, after first up a string of ten wins in the first of the season.

Chicago opened a series with the Senators at Washington yesterday, and the locals pounded out a victory by which they again take third place over the White Sox. Groom threatened to break up early in the game, but managed to tighten up in the pinches and pulled through the entire nine stanzas, allowing only seven hits.

The New York Yankees won again yesterday, this time the Detroit Tigers donating to the charitable cause. Like the Washington game, the winning run was scored for the Yanks in the ninth inning. Lake and Schulz pulled off a pretty pitchers' battle with honors about even. Manager Hugh Jennings, who has been indefinitely suspended from the game.

Yerkes, of last year's world series fame, started in yesterday's Boston-St. Louis game, winning for his team with his second double in the eighth, scoring the winning run on Gardner's single. Hugh Bedient allowed just four well scattered hits, twirling the entire game.

Naps Drop the First.
Philadelphia, June 12.—Cleveland today lost to Philadelphia 6 to 1. Plank held the visitors blank until the eighth when Jackson batted the ball into the left field bleachers for a home run. Falkenberg pitched good ball except in the sixth inning. In the eighth Leveit batted for him and then Blanding did the pitching. Cleveland 000 000 001—1 3 1 Philadelphia 001 001 042—6 9 0 Falkenberg, Blanding and Carlsen and O'Neil; Plank and Egan; time 1:50; umpires O'Loughlin and Hildebrand.

Senators Won in Ninth.
Washington, June 12.—Morgan's long drive in the ninth inning today with second occupied won for Washington from Chicago 5 to 4, and restored the locals to third place. The visitors threatened early to drive Groom from the box, but he settled down, after the third inning, and the Senators batted both Cicotte and Scott in the sixth for three runs, tying the score. Chicago 112 000 000—4 7 2 Washington 010 010 011—5 2 0 Cicotte, Scott and Schalk; Groom and Henry; time 2:08; umpires Ferguson and Dineen.

Another Won in Ninth.
New York, June 12.—The New Yorks won today from Detroit 2 to 1 scoring the winning run in the ninth inning. With two out, Hartzell doubled to left and Caldwell ran for Hill, scoring on Middiff's single. Lake and Schulz had a pretty pitchers' battle with honors nearly even. Manager Jennings of the Tigers has been indefinitely suspended.
Detroit 010 000 000—1 5 2 New York 010 001 011—2 6 0 Lake and Rondau; Schulz and Grossett; time 1:45; umpires McGreevy and Connolly.

Yerkes Won for Champs.
Boston, June 12.—Timely hitting by Boston and good pitching by Bedient enabled the locals to defeat St. Louis today 3 to 2. The visitors failed to hit safely in the last five innings. Yerkes got his second double in the eighth inning and scored the winning run on Gardner's single to left.

MOTOR BOAT RACES

Smallest Boat in Contest Succeeds in Taking the Honors

Hamilton, Bermuda, June 12.—According to unofficial computations The Dream, the smallest of the contestants, owned by Charles L. Lazen, of the Yachtmen's Club, is winner of the motor boat race from Philadelphia to Bermuda; the Barbara II is second and the Tocsam third.

The Dream crossed the line at 4:55 last evening, 13 hours, 29 minutes and forty seconds after the arrival of the Barbara II, the scratch boat, and thus with her time allowance of 16 hours, 44 minutes and 25 seconds, had three hours, 14 minutes and 55 seconds to spare.

The Tocsam, which arrived at 4:30 this morning, had only 15 hours, 6 minutes and 35 seconds time allowance. She arrived, according to the unofficial computation, 25 hours, four minutes and 40 seconds after the scratch boat.

The skipper of the Tocsam reported on mooring that the boat had encountered bad weather on Sunday. The distance between Philadelphia and Hamilton is calculated at 721 nautical miles.

The Barbara II was the biggest of the contestants, being 71 feet in length, whereas The Dream measured only 40 feet and The Tocsam 45 feet. The Dream won last year's race.

TY COBB'S FIRST MONTH

Analysis of Records Made by Georgia

Detroit, June 12.—Admirers of Ty Cobb have a right to be proud of the record amassed by the Georgia Peach during the first month of the present campaign. Participating in 24 games, of which his team won 11, Cobb hit safely in 20 combats and in one of these it should be remembered that he was an added starter and got a chance to bat only once, which opportunity he improved by pulling a sacrifice fly.

The gunners who slipped ciphers in to the Southern's base hit column were Ray Keating and Ray Fisher, of the Highlanders, on May 7th and 8th, respectively; Harry White and Bill Lange, of the White Sox, on May 4th, and Tom Hughes and Tom Drohan, of the Senators, on May 16th.

In the score of contests in which Cobb hit safely he obtained 22 singles, three doubles and three triples, his batting average from April 29th to May 28th, inclusive, being .475. He has made three hits five times this season, two hits eight times and one hit seven times. His best record in the way of consecutive clouting came in the games of May 19th and 20th with the Athletics, when he got six hits in the same number of trips to the plate.

Ty Cobb, who seems bent on carrying off the Chalmers American League trophy for the third time, has put the finishing touches to 14 of the 15 games he has played in seven or more combats, has driven in four more runs, four on aerial sacrifice and three on infield outs. He is not the Tigers' leading batter-in of runs yet, for Bobby Veach, who has played in ten more contests, has driven in four more runs, four on aerial sacrifice and three on infield outs. Cobb has drawn 17 passes in 24 games and has been successful in 12 out of 16 steals he has essayed. The men who turned him back when he tried to steal were Henry, of Washington, twice; Carrigan, of Boston, once; and Lapp, of Philadelphia, once.

PHILLIES TOOK THE OPENER

Defeated Cardinals in Initial Game of Series—Dodgers Dropped Another—Giants Won, Also the Braves.

The Phillies opened with St. Louis yesterday under more auspicious circumstances than featured their stay at Cincinnati, and won the initial game, 7 to 5, Alexander being the big man on the mound, as well as with the stick, making two runs and driving in three more.

Nap Rucker dropped his second consecutive game yesterday, the Chicago Cubs defeating Brooklyn 6 to 1. The Dodgers are now only three points removed from fourth place, and only 33 points from fifth, having taken a slide in ten days from second place.

The Giants won yesterday's game from the Pirates by hard hitting, their fielding being on the ragged edge throughout. Camnitz was batted in the second and eighth innings opportunely. Tereau pitched good ball for the Giants, but five errors behind him had lots to do with the scoring of runs by Pittsburgh.

The Cincinnati Reds after their defeat of the Phillies Wednesday, were over-confident and let the Boston Braves win the opening game of the series yesterday, 9 to 3. George Suggs was in the box for the Reds and allowed the Bostonese an even dozen safes.

Phillies Won Too.
St. Louis, June 12.—Alexander was strong at critical stages while Philadelphia hit Steele and Burk opportunely, winning 7 to 5. Alexander's batting was a scoring factor, the big right hander making two runs and driving in three.

St. Louis 110 101 001—5 11 2 Philadelphia 000 403 000—7 11 1 Steele, Burk and Wingo; Alexander and Kilgore; time 2:06; umpires O'Day and Emslie.

Rucker Dropped One.
Chicago, June 12.—Chicago bunched hits off Rucker today and won, 6 to 1. Humphries was in fine form and held the visitors to six hits, only two of which were home runs. These with the aid of a sacrifice fly saved Brooklyn a shut-out.

Brooklyn 001 000 000—1 6 1 Chicago 110 202 000—6 13 0 Rucker and Miller and Fischer; Humphries and Archer; time 1:25; umpires Egan and Eason.

Loose Game to Giants.
Pittsburgh, June 12.—Fielding badly but hitting hard and opportunely, New York won from Pittsburgh this afternoon, 6 to 5. Camnitz was batted in the second and eighth. Behind Tereau, New York played bad ball, five errors being made. These with the aid of a sacrifice fly saved Pittsburgh's scoring.

New York 000 000 000—6 13 5 Pittsburgh 001 200 000—11 0 Tereau, Randall and Meyers; Camnitz, Robinson and Gibson and Kelly; time 1:32; umpires Rigler and Byron.

Braves Defeated Reds.
Cincinnati, June 12.—A triple play by Maranville and Myers of Boston, with a decidedly quick ending to the game between Boston and Cincinnati here today, the visitors winning 7 to 3. Almeida and Groh had singled when Boychamper drove a line fly to Maranville who stepped on second, retiring Almeida and threw to first catching Groh.

Boston 000 110 014—7 12 1 Cincinnati 300 000 000—3 8 3 Rudolph and Whaling and Rariden; Saggas and Clark; time 2:00; umpires Klem and Orth.

Clark Signed to Meet Harry.
Joplin, Mo., June 12.—"Jeff" Clark today signed a contract to meet Harry Wills in a 16-round bout at New Orleans on June 18th. The agreement provides the winner of the bout is to meet Sam Langford in July at New Orleans.

ENRAGED MAN SUICIDES

Makes Unsuccessful Attempt to Kill His Wife

Rome, Ga., June 12.—After making an unsuccessful attempt upon the lives of his wife and her mother, Mrs. Martha Jeff, late today, Charles Robinson, local factory employe, blew out his brains with a revolver. It is said that Robinson, who has been separated from his wife for some time, called her from her mother's house for a conference, and immediately opened fire, wounding her in the shoulder. Mrs. Jeff, attracted by the shot, appeared in the door and was also fired on, a bullet severing one of her fingers. Robinson then turned his weapon upon himself. Mrs. Robinson will recover.

HERNANDEZ EXECUTED.

Mexican Hostilities Along the Border. Rallying Troops.

El Paso, Texas, June 12.—Braulio Hernandez, who organized a group of armed men under Vasquez Gomez banner at Palomas, Chihuahua, is reported to have been executed yesterday by his own men. Palomas is on the New Mexico border opposite Columbus, N. M. Hernandez was secretary of Chihuahua under the Madero administration. Federal mineurs proclaiming for Vasquez Gomez, who captured Pearson yesterday, began a movement north today toward Casas Grandes, which is defended by 200 Federal troops.

WOMAN CONVICTS BLOCKADER

Mrs. J. W. Campbell Not Only Reported But Captured Illicit Still and Distillers—Raleigh Drug Store License.

(Special Star Correspondence.)

Raleigh, N. C., June 12.—In the Federal court last afternoon Mrs. J. W. Campbell, of Chatham county, appeared as the principal witness against James M. Perry for blockading. She is a handsome, and evidently a determined, young woman and her statement, corroborated by the revenue officers, was to the effect that she reported the still and when she had waited for several hours for the officers to come and capture the still and blockaders, and they did not show up, she should escape, she invaded the place with three other women and held the plant and two blockaders, Perry and another, until the officers came. The jury convicted Perry on Mrs. Campbell's testimony and sentence will be imposed later.

Glenn H. Ketchum, who was assistant postmaster at Kiser, Montgomery county, submitted to the charge of embezzling \$300 of postoffice funds, pleading to the court that having no legal parents and six other dependents on him, and struggling to establish a business which his father had started while in health, he got further in the hole and his counsel expressed it, pulled the postoffice in after him. He is now working in Richmond at \$55 per month and sending \$35 per month to his bondsmen, who have made good the amount taken from the government. The order of Judge Connor was for continuance of the trial for three months, not even the costs being taxed on the young man, who seems to be doing all he can to repair the wrong.

In another case Joe Harvey was given a year and a day in the penitentiary for selling whiskey at Fayetteville, it developing in the trial that his pal had been captured in Fayetteville one morning at 6 o'clock and by night had begun a sentence of one year on the roads for his part in the case. The two had 30 gallons of whiskey when officers seized their wagon and Harvey escaped temporarily.

The Raleigh Commission Government Council a few days ago decided to permit drug stores to sell whiskey on prescription and fixed the city license tax at \$200 per year, but only three drug stores have yet procured the licenses, these being negro stores. The State tax of \$300 and the county tax of \$50, if the Commissioners desire to fix that amount, would make the tax aggregate \$700. However, the County Commissioners will not finally fix the amount of the tax for the county until Monday and there is a strong movement to induce the board to cut the tax considerably under the \$300 maximum.

Dr. Summers, of the South Carolina Department of Agriculture, has been in the city for several days past making a special investigation into the North Carolina regulations and work in the food and the oil inspection departments. South Carolina is just installing divisions of this sort modeled considerably after North Carolina.

The half hundred and more prominent teachers of the State who are to go into every part of the State during the summer and conduct the county teachers' institutes, are holding a very successful three-day conference here for the social study of methods of teaching, the various studies of the public school curriculum and exchanging ideas, the conference being under the supervision of Dr. J. Y. Joyner, State Superintendent of Public Instruction, and Prof. E. E. Sumner, head of the teacher training division of the State Department of Education. The conference is being held in the Senate chamber of the State House.

Great numbers of questions have poured in to the Corporation Commission from tax listers in all parts of the State during the past month, the latest being that never old query, "When does a pup become a dog?" A taxpayer in the back of the tax lister who makes the inquiry, has a puppy six months old and insists that it is not a dog and cannot be held liable to a dog tax. The Corporation Commissioners have not ruled as yet as a commission, but some of the members are free to express the view that anything of the dog species from a day old up is liable to the tax.

SHOOTING AT SOUTHPORT

Oscar Lewis Wounded in Thigh by Soldier Named Smith.

(Special Star Correspondence.)

Southport, N. C., June 12.—Oscar Lewis was shot and wounded in the fleshy part of the thigh last night about 10 o'clock, at corner of Moore and Dry streets, by a soldier named Smith. The wound is not considered dangerous. Smith was locked up. According to the story told of the affair on the streets, Smith had some grudge against City Marshal Cecil Lewis, and the marshal and his brother, Oscar Lewis, were making the rounds together, the officer looking for the soldier. They came upon Smith at the point mentioned, and Smith is said to have whirled, drawing a long-barreled pistol as he did so. Oscar Lewis, being nearest to him, rushed the soldier's arm down and as he did so, the weapon was fired and the ball hit him in the fleshy part of the thigh, the weapon being so close to him that his trousers were burned.

Marshal Lewis almost on the instant struck Smith with his club, and arrested him. They went to the residence of Dr. Dosher, where the wounded man received medical attention, and Smith was then taken to jail. A bottle of whiskey, partly filled, was found in his pocket.

BIG VERDICT AFFIRMED.

Sumter, S. C., Man Secures \$40,000 From the A. C. L.

(Columbia State, 11th.)

The Supreme Court in a decision yesterday, affirmed a verdict for \$40,000, secured by H. C. Huggins in the Sumter county court against the Atlantic Coast Line Railroad Company and Peter Wilson, a fireman, for injuries received. The decision was by Associate Justice Hydrick and concurred in by the entire court. This was an action for damages for personal injuries alleged to have been sustained by H. C. Huggins on October 21, 1909. He alleged that his injuries were caused by "negligent and wanton conduct of the company in furnishing him an incompetent fireman, to assist in the discharge of his duties as engineer." It was charged that the fireman started the engine, causing the plaintiff to fall.

GREEN COUNTY FINANCES.

County Getting Out of Pauper Class—Dr. Kornegay Returns.

(Special Star Correspondence.)

Kinston, N. C., June 12.—Greene county, according to a report from Snow Hill today, bids fair shortly to emerge from the pauper county class, one of which it has been for some years. As a result of the careful administration of affairs by its model Board of Commissioners, Greene has a balance of nearly \$12,000 in the county treasury from a total tax income of \$20,251 for the fiscal year just ended. The expenditures during the year included \$4,000 for a new jail. The county has a population of only 1,000.

Mrs. Maple Loftin, relict of Shade Wooten, a prominent and wealthy citizen of Kinston in his day, died at her home on Independent street yesterday from feebleness resulting from old age. Mrs. Loftin was 83 years old. She had been an invalid for a long time and her demise was not unexpected. She was Miss Rhem before her marriage, and leaves a large family connection in the Carolinas. She had no children. Mrs. Loftin was a member of the Baptist church, and the funeral will be conducted today by Rev. C. W. Blanchard, her pastor. Interment will be in Maplewood cemetery.

F. L. B. Rouse, aged 45 years, died suddenly at his home at Seven Springs. Mr. Rouse appeared to be in splendid health, but had been making a reputation in medical circles in Louisiana and Mississippi, has been granted permanent license to practice in this State, and he has located here. The examining board of the State Medical Society recognized the credentials Dr. Kornegay bears from the medical societies of the Gulf States, and did not require him to enter the regular examination.

WORK OF OLD MASTERS

Walls in State Capitol Reveal Marvellous Workmanship.

(Special Star Correspondence.)

Raleigh, N. C., June 12.—In order to install a new vault in the State Treasury Department a bath room under the main stairway at the east entrance to the State House has been cut out. The walls of the bath room being entirely of stone, the door leading into it only has to be closed up with stone to form a thoroughly safe vault except the time lock doors. These have been ordered from a leading vault manufacturing company. In cutting into the treasury partition wall to install the new vault, it was found that the wall had 20 inches of stone, then a series of iron bars and then a 16-inch brick wall against the bars. The workmen were perfectly amazed at what may easily be termed the over stability of the construction, which dates back to 1832.

WASN'T WORTH THE LIVING

Was Mrs. Bowling's Conception of Life at One Time—Thinks Differently Now.

(Special Star Correspondence.)

Loveland, Ky.—"When I first wrote you, I was feeling so miserable that life wasn't worth living." So writes, in a recent letter, Mrs. Anna Bowling, of this place.

"I was in bad shape, my left side hurt so at times I could hardly bear it, and I could not lie on that side at night, at all. I also had another serious symptom of womanly trouble. I finally decided to give Cardui, the woman's tonic, a trial, so I purchased a bottle, and by the time I had taken it I felt better in every way, so I got another bottle, and it straightened me out entirely. I feel as well now as I ever did in my life, and I can be safe in saying that Cardui is the best medicine on earth for women. I had little faith in it before I commenced taking it, but now I would not exchange it for all the other medicines."

Are you one of those poor women sufferers, who feel that life is hardly worth the living? Have you that everlastingly tired, nervous, worn-out, headachy feeling? If so, get a bottle of Cardui and begin taking it today. No doubt it is the very medicine you need.

THE MORNING STAR
WILMINGTON STAR COMPANY, INC.
Wilmington, N. C.
Entered as second-class matter at the
postoffice at Wilmington, N. C., under Act
of Congress, March 3, 1879.
FULL ASSOCIATED PRESS REPORT.

Friday, June 13, 1913.

If the freight rate keeps up they may call him E. Jaculate Justice.

All Wilmingtonians who go away for a trip or to spend the Summer ought to carry some printed matter about Wilmington—that is, if there is anything in print.

Why should Northerners remain up there and wear heavy overcoats, when they can come to Wilmington and be comfortable in a light overcoat during our delightful June weather?

A Northern visitor says he knows what brought all this weather from Labrador. His idea of it is that it followed him because he came South with nothing but his Summer clothes.

General Blanco hung an emisory from President Huerta for offering him \$300,000 to turn traitor to the insurgent cause. Why should men simply make "offers" when it is always safer to tender the money?

The Star offers a toast to the President of Chile, as his country is doing \$3,000,000 of business with port of Wilmington. It's all right, anyhow, although Chile's balance of trade against Wilmington is \$3,000,000.

This remark comes from the Greenwood (S. C.) Journal: "If reports are true, a drink is even more accessible than a square meal in Columbia." Why start a movement to over-run Columbia with visitors whose sole object will be to investigate all the facts in the case?

AFTER LATIN-AMERICAN TRADE

Since the port of Wilmington already has handled more than \$3,000,000 of Chilean and Peruvian commerce since November, it is interesting to note that quite a delegation of the Boston Chamber of Commerce has been making a tour of the South American countries to cultivate trade relations and inquire first hand into the opportunities for commerce. Bankers, manufacturers, business men and newspaper representatives make up the party. They have been cordially received everywhere, and especially at Valparaiso, Chile, where the commercial bodies made extensive preparations for their reception and entertainment. The Bostonians reached there last week and were astonished at the progressiveness and prosperity of the Chilean Republic and its people.

While, in a commercial way Chile and Peru are further away from us than are any of the South American countries, they will be the closest of those countries after the Panama canal is completed. When steamers come to Wilmington from Chile and Peru to bring nitrates for fertilizer purposes, they come all the way around South America, making the passage from the west coast to the east coast by way of the Straits of Magellan. Nevertheless, the west coast of South America is almost due south from Wilmington, and when the Panama canal is open a plumb line dropped from the mouth of the Cape Fear would go through the canal and the plumb would strike Chile and Peru. Instead of passing around a continent to reach Wilmington, the steamers will come almost straight to Wilmington, and thus save a sailing distance of 5,000 miles. The time saved between the nitrate mines and Wilmington will be from 30 to 40 days. It now requires 65 to 70 days for ships to come from Chile to Wilmington.

The long water haul, 9,400 miles, greatly to the cost of nitrate of soda delivered in the United States. The present price at Wilmington is \$54 the ton, but whether the price will be reduced on account of the saving in time, it cannot be stated, but it appears reasonable that such will be the case.

The port of Wilmington is a large distributor of Peruvian guano and Chilean nitrates, which are imported direct to this ocean distributing point by Messrs. William R. Grace & Co., and Messrs. Wessel, Duval & Co., of New York. This use of the port has resulted in the installation of extensive water terminals on the harbor, and it affords a large amount of transportation to the railroads. Nitrates are distributed from Wilmington by the train and carloads throughout North Carolina, South Carolina, Georgia and Virginia. Every railroad running out of Wilmington into the distributing territory carries this South American product to all parts of the country.

The nitrate imports constitute an enormous business, having grown from 9,000 tons in 1909 to 43,000 tons in 1912. The importation will far exceed all records this year, the port receipts since November up to this week having been 54,000 tons, valued at nearly \$3,000,000. Four steamers finished unloading cargoes last week at the Atlantic Coast Line terminals, which handle this business. Two of the ships belonged to Messrs. Wm. R. Grace & Co., and two to Messrs. Wessel, Duval & Co. Besides this, the port handles thousands of tons of Peruvian guano, and it is distributed in a vast territory reached on account of Wilmington's port facilities.

Nitrate of soda is a wonderful product and its value may be judged when it sells at the steamer's side at \$2.52 per sack of 100 pounds or about \$24 per long ton. Every pound of it is sold for cash, American gold, as fast

as it comes from the steamer and is weighed. Very little of the material is ever stored, as it is loaded from the ships into cars standing at the docks ready to carry it away. Every cargo is sold in advance by brokers all over the country, and they are always ready to cash in upon delivery. Nine steamers with these fertilizer products have arrived in this port since November, four of them having just cleared during the past few days.

Wilmington has a fine opportunity to do an export business direct with the west coast of South America. With four steamers going out to make the return trip, after having picked up cargoes elsewhere, it will be seen that the opportunity is great for loading every ship here at a low rate.

AS THE MICHIGAN MAN SEES IT.

Mr. B. F. Stiffler, of Southport, dropped into The Star office a few days ago, but we regret that we missed him, especially as he stated that The Star was responsible for his coming to tidal North Carolina. He saw a Star article on the peach and fruit growing adaptabilities of this section and decided that if the statements were true, it was North Carolina for him. He came to investigate, diagnosed the possibilities as we diagnosed them, and picked a place near Southport for a practical test of The Star's claims. We regret that we did not get a chance to talk to him, but here is what the Southport News of yesterday says about him:

"It was our pleasure last Saturday afternoon to visit the farm of Mr. B. F. Stiffler, about three miles up the river. On our way up we passed the already famous place of Mr. W. L. Robinson, 'The Robin's Nest.' Mr. Stiffler has selected for his new river home a place both beautiful and healthful. High up on a bluff overlooking the Cape Fear river and capped with great majestic pines, looking down the old Atlantic in the face across the bosom of the river and surrounded with fruit orchards, truck gardens, and groves of nut bearing trees, his will be as nice a home as graces the banks of this slightly stream anywhere from its source to where it empties into the deep blue. Mr. Stiffler comes to Brunswick county from Michigan, where as a fruit grower he made a success. He already has success in sight on his farm which he has cleared and planted since February. He is now working on a beautiful little bungalow, which he will occupy until he has time to erect his home. He is a citizen worth while and our farmers will do well to follow him in growing fruit and truck. Brunswick county needs and before long will have most just like him."

We are gratified to learn that Mr. Stiffler is enthusiastic over his prospects and that he is going to be a practical demonstration of The Star's contention. He is on the right track and will give us an object lesson as to what to do with our adaptabilities and resources. He does not say that himself, but that is our prediction and he is satisfied he will be able to do what we predict.

Mr. Stiffler has made a splendid impression at Southport, and judging from the kind of man he is we would like to welcome about 50,000 like him into eastern North Carolina. We hope to have the pleasure of seeing his place some of these days, as the article we take from our Southport contemporary indicates that he has come to stay.

CHARLOTTE PROTESTING

Charlotte is protesting that Mecklenburg county, of which it is the county seat, is too great a load for Charlotte to carry. We have heard of the fifty-five "pauper counties" which depend upon the forty-five others by drawing more from the State Treasury than they pay in, and now comes the cities with the complaint that even rich counties are drawing heavily upon the resources of the county seat. Hear the Charlotte Chronicle:

"The Chronicle is glad to see that the city administration is at last aroused over the situation existing between the city and county whereby the city is bled for the benefit of the county. If Aldermen Kirkpatrick, Mason and Kistler cannot accomplish anything by their conference with the Board of County Commissioners other steps should be taken. The Greater Charlotte Club should go on record against such an iniquitous and unjust arrangement as exists at present and the people of the city in mass meeting should sound forth a protest and a warning. In the city every little business establishment must pay a license to do business, because it seems to be the only way to raise anything like the necessary funds to operate the city. Of course, the consumer pays the bill. The people of the city are taxed to pay two-thirds or more of the interest on county bonds, the same proportion of the cost of new roads in the county, the same proportion of the general support of the county, besides thousands of dollars of poll tax, all the fines from the city police courts and the services of all the convicts from the city courts. The situation has become acute. The people of the city have come to a realization of the fact that they have been worked for suckers and we don't believe they are going to stand for it any longer than a remedy can be found and applied. And if the remedy can't be applied now it can be applied later."

This again brings up the unsentimental method of taxation in this country. Equalization of taxation is something to be studied and applied to all such situations as affect Charlotte, and other cities, for that matter. We are just beginning to see how it is that a part of the people are made to pay most of the taxes.

AS TO STATE BONDS

The failure of the State to receive bids sufficient to cover its bond offering of a million dollars is no reflection on the State's credit, which is A No. 1; but is simply an incident in a situation that is world-wide at this time. All securities, no matter how sound and attractive, are inactive in the face of financial depression in every country on the globe. Democratic tariff legislation has already been charged up with the situation in this country, and while uncertainty as to just what will be enacted undoubtedly has effect on American business, the Wilson ad-

ministration cannot be held accountable for the present stringency obtaining universally. There appears nothing alarming in the situation, and a panic is not feared. Money centers are simply husbanding their resources and looking out for their most pressing needs only. Crop prospects are good and there is enough to inspire an optimistic outlook. The State unfortunately had to go on the market with its bonds at a time when money is scarce. These things are not uncommon and in this instance indicate nothing that need cause alarm. It must be borne in mind, also, with reference to politics, that there are interests which would like very much to create the impression that the country is about to go to the demeritum how wows, so that public opinion might be influenced to cripple an administration that has set out to right a good many wrongs which have been allowed to spring up during the past score of years.

CURRENT COMMENT.

Possibly the archaeologist who says that baseball is 3,500 years old was merely alluding facetiously to Cain's life-and-run play and the prodigal son's home run.—Columbia States.

The tax for the building of good roads does not approach to the size of the tax imposed by bad roads. The mud tax is a tax which no citizen should endorse. It should be gotten rid of as quickly as possible. Good roads increase values and add to the prosperity of every country in which they are to be found. The illustration of this is to be found in the progressive counties of North Carolina.—Raleigh News and Observer.

The proposed highway from Goldsboro to Wilmington would give us one of the best roads in the State and one that will be used as much as any other in the State. Let the people along the W. & W. road make an earnest effort to induce Governor Craig to designate this road as one section to get a part of the \$40,000 appropriated by the National government to demonstrate good road building in North Carolina.—Mount Olive Tribune.

A number of University of South Carolina students are going to spend their vacation selling aluminum ware and other things in Minnesota and the Carolinas. Not very many years ago stereoscopes were very popular among college boys who turned peddler in the Summer months. A Summer spent in the role of salesman isn't going to hurt any college boy, especially the young fellow who has to be satisfied with very small checks from home during the Winter months. There is a big army of young men and women who make their vacation earnings so long a way towards paying their college expenses. The chances of the student who hustles in the Summer time will furnish a big per cent of the honor men on graduation day.—Savannah News.

According to a London cable, the appointment of a woman as receiver of the United States government's land office at Leadville, Colo., and Secretary of the Interior Lane's remark that "money can be more safely handled by women than by men," have aroused considerable interest. A number of the largest business firms have been interviewed on the subject of women's honesty and the general verdict is that the small number of defalcations among them is astonishing. The managing director of Whiteley's stores in London recently stated that he had not known a single case of dishonesty among women employees, but that a large number of men during his 14 years as managing director were discharged on account of stealing.—New Orleans Picayune.

The city tax rate at Wilmington is \$2 on the \$100 valuation of property. At High Point it is \$1.45 and at other cities in the State it ranges between these figures with few exceptions. The tax rate in Charlotte is \$1.20 and the county tax rate is so high that, as pressing and as necessary as additional funds are for the city, the aldermen hesitated to increase the rate. And while the city suffers for lack of funds to provide the proper police, fire and health protection and the services and accommodations that are taken for granted in a city, the taxpayers of the city are paying \$1.16 on the \$100 for the benefit of the county, and are paying it on assessments that range from 25 per cent to 100 per cent higher than the assessments in the county.—Charlotte Chronicle.

Some of the papers of the State are not exactly straight in their ideas about the closing of the United States assay office in Charlotte. They are sympathizing with the city on the prospective closing of the office on June 15. What will happen then will be the formal disposition of the idle equipment of the office. The assay office was closed a year or so ago when active work of handling ores was discontinued. That event was a severe blow to the gold mining industry of the South. The South was unavailingly protested by The Observer. But since the assay office was abolished, the clearing out of the old building has been going on. The city is to be benefited. It means the turning over to Charlotte of what is said to be the government's most classical architectural building, to be used as a museum and as the most thoroughly appointed armory in the South. The old Mint building, with all its historical associations, is to be perpetuated as a Charlotte institution. The only difference is it will no longer serve the useful purpose of refining the ores of the gold mines of this part of the South.—Charlotte Observer.

GETTYSBURG COMMISSION

To the Editor of The Star: Why is it, that out of the vast number of Eastern North Carolina "rebels" who fought as bravely as those from Western North Carolina, not only at Gettysburg, but upon every field of battle in which the Army of Northern Virginia was engaged, that not a single one of them was of sufficient importance to our Governor to be named as a commissioner to represent his State at Gettysburg?

To The Young Expectant Mother

Women of Experience Advise the Use of Mother's Friend.

There is a certain degree of trepidation in the minds of most women in regard to the subject of motherhood. The longing to

possess is often contradicted by the inherent fear of a period of distress. But there need be no such dread in view of the fact that we have a most noble remedy in what is known as Mother's Friend. This is an extract from a book that has a wonderful influence and control over the muscular tissues of the abdomen. By its daily use the muscles, cords, tendons and ligaments all gently expand without the slightest strain; there is no pain, no nausea, no constipation, no distress. As a severe physical ordeal becomes a calm, serene, joyful anticipation that has its own reward, the history of successful women is striving to drill into the minds of the present generation.

In view of the fact that there are women who have used Mother's Friend, and they are the ones that recovered quickly, and conserved their health and strength to thus preside over families destined by every rule of physiology and the history of successful men and women to repeat the story of greater achievement.

Mother's Friend is prepared after the formula of a noted family doctor by the Bradford Regulator Co., 138 Lamar Bldg., Atlanta, Ga. Write them for their instructive book on "expectant mothers." You will find it well made by all drug stores at \$1.00 a bottle.

PLANS BEFORE CHAMBER CIDER CASE CONTINUED MORE SHIPS FOR THIS CITY WILL MEET AT WHITEVILLE

Commercial Organization Hears Officially from Dr. Stiles of Work Undertaken Here by the U. S. Government

Addressing the Chamber of Commerce yesterday afternoon, Dr. Chas. W. Stiles, in charge of the Marine Hospital in this city, unfolded in detail the very extensive plans of the United States government, working through him, for a medical inspection of the public school children of New Hanover county. The work outlined will require about two years and when completed it is expected that New Hanover can be pointed to as a model county in sanitation.

It was the regular monthly meeting of the Chamber and the attendance was the largest in many months, being drawn there for the most part to hear Dr. Stiles. The plans of the government have been presented in detail to the North Carolina Society and the New Hanover Medical Society, both organizations giving their unqualified endorsement and have also been published in full in The Star. The people generally have manifested deep interest and will co-operate with the government officials to the utmost in order to secure the best results. It is a splendid offer the government has made to the city and county and the people will not take advantage of the opportunity thus afforded to receive some of the most expert medical advice to be had in the country without any cost to the city or county or individuals.

President M. J. Corbett presided at the meeting. Dr. T. S. Burbank, chairman of the health and sanitation committee, introduced Dr. Stiles. No speaker has ever held closer attention of his auditors in the rooms of the Chamber of Commerce than was given Dr. Stiles. He is a good talker, and uses language that is easily understood by all. So interesting were his remarks that no one realized that nearly an hour had slipped by while he was speaking.

The plans of Dr. Stiles, who will be assisted by 10 or 12 experts in different branches of medicine, have already been given in full in The Star several times, no synopsis of the talk yesterday is given.

At the conclusion of Dr. Stiles' address the meeting adjourned, there being nothing else before the Chamber for consideration. President Corbett thanked Dr. Stiles for appearing before the board and explaining the plans for the important work.

The examination of children has already started. The women of North Carolina Society making good their promise to have their children examined first. From five to ten children will be examined each day and the work will continue until the summer. The children will go to the Marine Hospital for examination, which will be thorough in every particular, requiring from five to eight hours for each child. It might not be amiss to state here that the result of the examination is not made public, but on the other hand the information is most zealously guarded by the government experts. Parents will be informed of the exact condition in which their children are found, but the parents of one child can learn nothing from the hospital as to the result of the examination of a child of other parents. Parents will be allowed to be present at the examination of their own children, if they desire. At the meeting of the executive committee just before the meeting of the Chamber of Commerce, members were received. Mr. James Harrison, City Engineer, F. P. Pillett, Chas. Schaefer & Son, of New York, with branch house here, and Mr. J. L. Becton.

STATE MUNICIPAL LEAGUE

Annual Convention Will be Held at Wrightsville Beach in August. Programme Has Been Announced.

The programme has just been announced for the annual convention of the North Carolina League of Municipalities which will be held at Wrightsville Beach, Oceanic Hotel, August 11th, 12th, and 13th. A glance at the programme will convince anyone that the session promises to be one of the most important and profitable that have ever been held by the association, which was organized in Charlotte about five years ago.

Mayor C. A. Bland, of Charlotte, is president of the organization, and Mr. O. P. Snell, of Dunn, is the secretary. The programme of addresses as announced follows:

Address of Welcome—Mayor Wright, of Wrightsville Beach.

Responses to Welcome—Mayor J. E. Rankin, of Asheville, and Mayor Charles A. Bland, of Charlotte, president of the association.

"Unjust Discrimination in Freight Rates and How to Present a Defense"—Locke Craig, Governor of North Carolina.

"The Commission Form of Government"—Mayor T. J. Murphy, of Greensboro.

"Sanitary Conditions of Our Cities and Towns"—W. S. Rankin, secretary of the State Board of Health.

"What Amendments to the Constitution Will be Most Beneficial to the Constitution"—Chas. Brenizer, city attorney, Charlotte.

"How Can We Obtain Better Fire Inspection?"—W. W. Kitchin, ex-Governor of North Carolina.

"Uniform Charters and Ordinances"—T. W. Bickell, Attorney General of North Carolina.

"Law Enforcement"—Attorney John A. Oates, of Fayetteville.

"Street Improvements"—J. L. Ludlow, engineer, Winston-Salem.

If the programme is carried out as announced some of the leading men of the State will be present to deliver addresses. Discussion of unjust discrimination in freight rates will occupy a prominent place in the convention, and, as noted, will be arranged with an address on the question by Governor Craig. This will be Governor Craig's first visit to Wilmington and Wrightsville Beach since his inauguration. All the other topics scheduled for discussion are of vital interest and importance and the representatives of the various municipalities who attend will doubtless get many new ideas and suggestions that will prove of material assistance to them in the management of the affairs of their respective cities. Almost every phase of civic life is discussed at these meetings. The attendance at this meeting is expected to be the largest since the association was formed for there is deep and widespread interest in the various topics scheduled for discussion. Not only will the executive officials of the var-

"Honey Dew" Salesman Served With Warrant But Hearing Postponed Until June 28th—Will Go to U. S. Court

The "Honey Dew" cider case took on further developments yesterday with the expected arrival of Mr. W. P. Young, salesman for the company making the cider, the sale of which is alleged to be in violation of the prohibition law. Mr. Young accepting service before Justice Harris, waiving examination and appearing in the Recorder's court, where continuance of the case was made until June 28th, at the request of the county solicitor.

Mr. Young was summoned back to the city, which he has been making his headquarters for several months and which he had just left, by Mr. Walter H. Hildrick, president of the Walter H. Hildrick Company, of New York, who had been dismissed by Justice Harris Wednesday because he had not personally solicited orders for the cider in question. Mr. Young had done this, and had been selling "Honey Dew" for months past to a number of wholesalers here and all over Eastern Carolina. He readily accepted service and through him the company, represented by John D. Bellamy & Son, appeared in the Recorder's court for trial.

After some consideration, during which numerous cases were cited by the defense to show their right to sell the cider, the case was continued until the 28th, but as Mr. Hildrick had to return immediately to New York, he was allowed to testify, his testimony being taken by a court stenographer for use in the hearing later. In his testimony he stated that the cider contained from five to seven per cent alcohol, that it was pure apple cider, and that he did not believe that it would produce intoxication because before a man could drink enough to make him drunk, he would become sick from loading up on so much sweet stuff.

Mr. Young gave bond in the sum of \$100 with Mr. John Heyer, of Heyer Brothers, as surety, and will leave at once to resume his interrupted trip around the towns in this part of the State, selling vinegar and "Honey Dew." Whether customers of the firm in the city will stop the sale of the cider until the law is declared unconstitutional, if it be so, or until it is repeated, remains to be seen.

Young declared that his firm had tested the right to sell the same stuff in various States, and that they had invariably won out; but this time they intended to take the matter to the Supreme Court of the United States for a final and final decision, and once for all. He stated that the firm, which is willing to spend a lot of money on the fight, if necessary, Mr. Young declared that alleged cases of drunkenness produced by the cider were due to persons loading up on a lot of wine, which contain 80 per cent alcohol, and Jamaica ginger, which is 90 per cent, and that it was not the cider itself.

The fight of the company will be made on the ground that the State law prohibiting the sale of beverages containing more than one per cent alcohol except apple cider sold by the farmers is unconstitutional because it is discriminatory, and in violation of the Fourteenth Amendment to the Constitution of the United States.

That the case will be hard fought goes without question, for the authorities here are sure of their ground and are determined to put an end to the sale of all drinks containing alcohol. It was a matter of general surprise to learn that anything in the way of drinks containing as high a percentage of alcohol as "Honey Dew," had been sold in the city.

The case will be of State-wide interest, for prohibition has brought to the front a lot of drinks sought after when whiskey cannot be obtained, and every city in the State is up against the same condition in regard to holding their doors closed to Wilmington.

Mr. Walter H. Hildrick, president of the Walter H. Hildrick Co., returned last night to New York. Mr. E. B. Kirk, of the Southern Sales Manager, who was summoned to Wilmington from the western part of the State by the local representative, and Mr. P. Young, salesman for Eastern North Carolina, will remain in the city for a few days.

Mr. Chas. E. Hooper, manager of the Oceanic Hotel, will take care of the convention in fine shape and the visitors will have an enjoyable time in every way during their stay on the beach.

Mr. C. E. Greenamyer, Before Charlotte Shippers, Suggests That North Carolinians Organize—Get Rates.

The following from yesterday's Charlotte Observer will be found of much interest in this section:

"That a group of North Carolinians should combine and finance a ship line to ply between Wilmington and New York and thus control for themselves the freight-rate situation as applied to points in this State to points North is the interesting proposal made by Mr. C. E. Greenamyer, of Wilmington, at a called meeting of the Charlotte Shippers & Manufacturers' Association in the office of the Greater Charlotte Club last night."

"Mr. and Mrs. Greenamyer arrived Tuesday night and spent yesterday here. Mr. Greenamyer said his purpose in coming was three-fold. He is a member of the company which is developing Sunset Park in Wilmington and wished to see the much-talked-of with which he was greatly impressed. He also wished to inform himself on the rate question and see what progress Charlotte is making so that he might learn, and, thirdly, he wished to ascertain what the feasibility would be on the proposal to inaugurate a new ship line which would benefit all of western North Carolina."

"Mr. Greenamyer is from Pittsburgh and has lived at Wilmington only 18 months. In his opinion the people of that city are just awaking to a realization of unused potentialities, and he hopes to be of assistance in the carrying out of this career."

"Mr. Greenamyer is a representative of the Fidelity Trust Company which owns in Wilmington the dock which for 18 years the Clyde Line has been using, leasing it for a nominal sum. That lease is about to expire, and the owners have refused to renew the lease at double the sum previously paid, because they are interested in the idea of having an independent line, possibly owned by North Carolinians. The property, he said, is the best in Wilmington, having a frontage of 270 feet on the river, 500 feet, thus allowing sufficient warehouse space for the business which could be expected. It is located, he added, in the best business section and is worth \$125,000."

"The Clyde Line has \$500,000 tied up in it, but for half the amount better results could be procured. In the opinion of the speaker, he suggested that if 500 North Carolinians would subscribe \$500 each the deed would be done, and the advantage would be assured. A dock in New York could be rented."

"As an illustration of the benefit which could be secured, he pointed out that the rate from Charlotte to New York is 91 cents. If the rate from Charlotte to Wilmington is reduced to 50 cents, as it is believed could be done, since the United States Supreme Court has decided that the State may regulate intra-State rates, and a rate of 23 cents is secured from Wilmington to New York, as seems assured, the total rate would be 73 cents, instead of 91 cents as now. This benefit is one that would be general throughout this section of the State. All northbound shipments could be made by way of Wilmington, through a general distributor there, thus securing a reduction of 18 cents by rail and sea for a week; the number would depend on the tonnage."

The speaker expressed the opinion that the rates as they now exist are fixed by the trust steamship lines in conference with the railroads, since freight from points within 50 miles of Wilmington are sent by the railroads to Norfolk several hundred miles away and are sent from there by water to Baltimore and New York. Were it otherwise it would seem that some arrangement would be entered into to save the long rail haul and lengthen the short water haul.

"The advantage of a competing line in securing lower rates was pointed out and Mr. Greenamyer told of negotiations with the Southern Railway Line some time ago with a view to securing this. The plan had to be abandoned because wharfrage in New York of regulars was too high, and a system that was planned to system touching at numerous Southern ports) could not be secured. There would be no such difficulty in securing quarters for the less ambitious North Carolina venture. Had the other deal gone through the water rates would have been reduced 15 per cent on first class, 10 per cent on second class, and 5 per cent on the commodity class, since the Wilmington people had agreed to give that company all their freight business for five years, which would practically have forced the Clyde Line out."

"The Charlotte Shippers & Manufacturers' Association, of which Mr. Greenamyer with interest, but decided to take no action at this time while the freight rate controversy is in its height. The speaker pointed out that he endeavor to arouse more interest on the part of Wilmington people so that he might return in 60 or 90 days with a definite proposal."

WANT FISH PROTECTED.

Complaint Because of Setting of Nets in Rivers and Sounds.

The extensive use of nets and fish traps in the Cape Fear and Northeast rivers and the sounds has caused considerable complaint by those who live in the vicinity of these streams. Some of those interested assert that if the practice is not stopped, that they will invoke the aid of the courts. It is said that the continual and persistent use of nets and traps is causing serious harm to the fish, and that they will invoke the aid of the courts. It is said that the continual and persistent use of nets and traps is causing serious harm to the fish, and that they will invoke the aid of the courts.

One of the chief matters about which protest is made is the use of mesh nets which are set in the rivers and sounds, and are not only the large fish but also the smaller ones. There is a State law which prescribes the minimum limit for the size of meshes, and it is alleged that this law is being continually violated. The parties interested want to see the fish industry protected instead of being perpetually damaged by the use of such nets and traps as the law prohibits.

Revival Closes Tonight.

The revival services of the Brooklyn Baptist church, which have been in progress for the last several weeks will close tonight with an illustrated talk by the pastor, Rev. J. A. Sullivan, his subject being "The Message of the Bottles." The inclement weather this week has served to reduce the attendance but splendid interest has been manifested and it is felt that much good has been accomplished. The public is cordially invited to attend the closing service tonight.

Twenty-fifth Annual Session of the Presbyterial Will be Held Next Week—The Programme Announced Yesterday.

A number of delegates from this city will attend the 25th annual meeting of the Presbyterial, an organization that embraces the missionary societies of the Wilmington Presbytery, which will be held at Whiteville, in the Presbyterian church there Wednesday, Thursday and Friday of next week. The programme for the meeting was announced yesterday.

The opening session next Wednesday evening at 8:15 o'clock will be devoted to exercises in commemoration of the 25th anniversary of the organization, conducted by Mrs. Andrew J. Howell, of Wilmington.

Thursday morning the Presbyterial will meet at 9:45 o'clock with devotional exercises by Rev. W. W. Morton. Following the roll call there will be greetings by Mrs. H. H. Horton and response by Mrs. R. W. Hicks, of this city. Then will follow greetings by Mrs. W. C. Winsborough. Reports will be received from standing committees, treasurer, church secretaries, new societies and the president, after which there will be an address by Dr. Geo. C. Worth, missionary to China, who sails for that country in a short time. Following the address the Presbyterial will consider some business matters before the noon recess.

The afternoon session begins at 2:30 o'clock with prayer service by Mrs. E. S. Lewis, followed by memorial service by Mrs. Willie Smith; address by Mrs. C. C. Winsborough; reports from ladies' societies; hospital fund, Miss Eliza Wright Murphy; address, Mrs. George C. Worth; report of W. M. Conference, at Montreal, Mrs. W. M. Hummingbird; prayer, business, adjournment.

Rev. Dr. J. M. Wells, pastor of the First Presbyterian church of this city, will make an address at the night session.

Friday morning the order of exercises will be as follows: Song service, Presbyterial Constitution, Mrs. J. A. Brown; Conference of Presidents and Leaders, Mrs. W. Sloan; address, presenting cause of Assembly's committee of Sunday School extension, young people's work, Christian education, young women's work, and activity of the First Presbyterian church of this city, will make an address at the night session.

The evening session, which will be the closing one, will be featured by an address by Mrs. C. N. Caldwell, of Exhibits will be made as follows: Literary and tract, Mrs. R. E. L. Brown; curio, Mrs. J. S. Crowley and Mrs. Geo. C. Worth; Popular educational exhibit committee of publication at Richmond, in charge of Mrs. L. W. Curtis. The aim of the organization for 1913 is 30 per cent increase in gifts and 10 per cent increase in membership.

Rev. and Mrs. Lacy Little, of Klang Yin, China, are expected to be present and make an address. Mr. N. Caldwell is a missionary from China and his address will be on foreign missions.

FUND RAISED BY CITIZENS

Will Aid the Police Department in Enforcement of Laws—Council Did Not See Fit to Provide for Detectives.

It was reported on the streets yesterday that because of the failure of the City Council to provide a contingent fund for enforcing the criminal laws, citizens, prompted by a desire to protect the good name of the community, have raised a fund and will employ private means to bring about convictions of the violation of the prohibition law and kindred vices.

A citizen commenting on the situation observed that it was a commentary on the city government when private citizens, all of them more or less large taxpayers, find it necessary to voluntarily tax themselves by private contributions to do the things which the government is instituted to do.

The enforcement of law is a governmental duty, and the continued "and taxes are levied for this express purpose, and when conditions in a community are allowed to reach such a state that private citizens feel obliged to submit to double taxation in order to protect the morals of the community, it is time for those in authority to sit up and take notice."

The former Council appropriated \$2,000 for use the last fiscal year for the employment of detectives to run down "blind tigers" and to ferret out violations of the law. Detectives were an important factor in the enforcement of the laws during the last 15 or 18 months of the life of the former administration.

The day the budget for the present fiscal year was adopted about three weeks ago Chief of Police Williams noticed the item for detectives had been omitted and he remarked that he regretted that the department was not given an allowance for salaries and expenses. He has always contended that while uniformed police officers can do much in maintaining law and order they can accomplish little if they are not aided by the efforts of detectives whose identities are not so well known to the people of the community.

Some of the leading citizens of the community, those most deeply concerned in the enforcement of the law, have taken the same position and have several times, and to the citizens' administration, subscribed liberally for this class of work when the city officials declined to provide the funds. This is justified, according to the report. It was reported that the citizens interested held a meeting yesterday morning at which they subscribed to the fund and outlined their plans for continuing their efforts in keeping Wilmington the law-abiding city that it is and has been for several months. It is doubtful if any city in the State can boast of having the "lid" on any tighter than it is in Wilmington. And it is going to stay that way, from what can be gathered from

the reports that are heard as to the plagues of the city.

A few weeks ago some of the citizens who are reported as having subscribed to the fund to take the place of the police "contingent fund" held in the city, were called to the attention of the Mayor and Councilman Jones, in charge of the Department of Public Safety, and assured them of their desire to aid the department in every way possible to enforce the laws. Mayor Moore and Councilman Jones are said to have thanked the citizens most heartily for their interest and assured them that they would be glad to have their good will and best wishes in their efforts to keep Wilmington a law-abiding town. It is presumed that the report of the citizens at this time has the full approval and support of the Mayor and the Councilman in charge of the Department of Public Safety. These gentlemen have shown ever since they have been in office their earnest desire to enforce all the laws of the city and they have been quite successful. The idea in raising a fund and employing detectives seems to be more as a precautionary measure so that never again will Wilmington be the wide open city it was some months ago.

SOCIAL & PERSONAL

Miss Jessica Vann, who has been visiting Miss Harriet Orr, of Charlotte, has returned home.

Miss Georgia Scott, of Corinth, Miss, is expected to arrive today to visit Miss Louise Smallbones.

Miss Lella McBride has returned to her home at White Oaks after spending some time here visiting relatives.

Miss Annie Bell, of Leland, N. C., is the guest of Mr. and Mrs. C. D. O'Neal at No. 417 Red Cross street.

Wednesday's Winston-Salem Journal: "Mrs. Emma Chitty left for Wilmington, yesterday to visit friends and relatives."

Mr. and Mrs. H. A. Huggins and child, of this city, have arrived in New York and are guests at Hotel Woodstock.

Mrs. J. S. Funchess has returned from Jackson Springs, N. C., where she spent several days. She will be glad to learn that her health has greatly improved.

On account of the unfavorable weather the Ladies' Aid Society of the Fifth Street Methodist church will not run their excursion to Carolina Beach today.

Miss Augustus Boykin left East Carolina Teachers' Training School at Greenville, N. C., yesterday to go to a house party given by Miss Madeline Albright, at Walsenburg, N. C.

Mr. A. David, accompanied by his daughter, Mrs. J. M. Moore, of Greenville, N. C., are spending the week in Wilmington, guests at the home of their son, Mr. J. M. Moore, who is clerk of the Superior Court of Pitt county, and is one of the leading men of Eastern Carolina.

Mrs. J. X. McDonald, of Bolton, who has been the guest of Mrs. C. E. Clark and Mrs. J. C. Clark, of Red Cross street, for the past few days, left last evening for Washington, where she will be the guest for a fortnight of Senator and Mrs. Ashurst, and Senator and Mrs. Worley, who are leaving for Los Angeles, her former home.

The Ladies' Missionary Society of St. Andrew's Presbyterian church will meet this afternoon at 4 o'clock. There will be an address by Mrs. George Worth, who expects to sail soon for the mission field in China. As this will be one of her last talks before the society, the members and the ladies of the congregation are urged to attend.

The June meeting of the Ladies' Foreign Missionary Society of the First Presbyterian church was held on Tuesday afternoon in the church parlors and was a very successful one. The regular programme was followed by an informal reception given Mrs. L. A. Knapp, one of the active members of the society, who is about to depart with her husband to Dallas, Texas, and whose departure will be a great loss to the society and the church.

Magnolia, N. C., June 11.—A quiet marriage was solemnized yesterday afternoon at 4:30 o'clock at the home of the bride's father, Mr. W. B. Bradshaw, near Magnolia, when Miss Leslie Bradshaw was happily united in the bonds of matrimony with Mr. John Hobson, Rev. E. C. Sell, pastor of the Methodist church, officiating. Only a few friends witnessed the interesting ceremony. The numerous friends of these popular young people wish them a long life of uninterrupted happiness.

Owing to the inclemency of the weather, the excursion down the river on the steamer Wilmington, under the auspices of the Methodist Episcopal Society of the First Presbyterian church, which was to have been given tonight, has been postponed until next Friday night, June 20th. The boat will leave the dock at 8:15 P. M. and all tickets which have been sold will be good on the date last named. A cordial invitation is extended to the public to enjoy the pleasures of a moonlight trip on the Cape Fear.

Yesterday's Southport News: "Dr. and Mrs. Wood, the daughter, Miss Ruth, and their two handsome sons, Charles and William, are in Southport for a few days' visit to their father, who is the pastor of the Methodist church in that town, where the doctor will take up his duties as medical missionary from the Southern Presbyterian church. They have been in the city some time, and Dr. Wood was doing some additional studying in New York. The home of these good people is in Wilmington. They say for the Orient on the 27th. The best wishes of their many friends here go with them in their long journey."

Violated the Law
Constable Davis is making an effort to ascertain the name of the person who distributed or caused to be distributed samples of pills put up by Chamberlain left in his front yard at No. 407 South Fifth street, yesterday afternoon and picked up his three-year-old child. The child became violently ill late in the afternoon and investigation disclosed the fact that a sample package of pills had been left in the yard and that the child had gotten hold of it. There is a city ordinance that makes it unlawful, punishable by a fine of \$10, for any one to leave samples of medicines in any hallway, private area, or yard, or on any street, alley or public place in the city. If he can find the person responsible for leaving the package in his yard yesterday Constable Davis intends to bring indictment under the city ordinance. He thinks he will have no trouble in finding the guilty person.

Taking of Testimony Closed
The taking of testimony in the case of S. P. Taylor against Chas. S. Riley & Co., of Philadelphia, and the Garysburg Manufacturing Company, of Garysburg, before Judge O. H. Gulon, of Newbern, referee, which was begun here Monday, was concluded yesterday and Judge Gulon and the visiting attorneys left for their homes. Judge Gulon will return the latter part of the month to hear argument of counsel before making his report to Pender Superior Court.

The Oceanic Hotel has received a request from Mr. J. N. McCausland, of Charlotte, for reservations for himself and five or six others, who will attend the meeting of the Merchants' Association which convenes Tuesday, June 17th. The indications are from the reservations that are being made that there will be a large attendance.

Among the visitors at Wrightsville Beach this week are Mr. and Mrs. L. Dew and Mr. and Mrs. J. Paul Teal, of Wadesboro, both couples being here on their honeymoon. Mr. and Mrs. Dew were married Wednesday afternoon at the home of the bride's father, Mr. W. B. Bradshaw, near Magnolia. Mr. and Mrs. Teal were also married Wednesday afternoon at the home of the bride's father, Mr. W. B. Bradshaw, near Magnolia. Mr. and Mrs. Teal were formerly Miss Mattie Bruton. Mr. Teal and Mr. Dew are popular business men of Wadesboro.

TALKING ABOUT THE WEATHER

Record of Twenty-nine Years Broken by Prevailing Cold

"The coldest ever!"
"Will it never quit?"
"I am 'steep years old and I never saw the like!"
"Why don't the newspaper men do something about the weather?"
"I knew as soon as I saw that in the paper about thirty Weather Bureau men being 'demoted.' You can't blame the weather man without getting into trouble. I am willing to subscribe liberally to 'promote' them, right off at once!"
These are among the countless comments heard since dawn and dawn last when the weather commenced to do things. Cold and rain and snow in June, in North Carolina, surely is a new thing. The weather is a real trouble. And today is Friday the 13th, too!

Every day people have walked up, fully expecting to see a hot and sunny weather, and every day they have been disappointed. The weather people have done the best they could under the circumstances but their best has been to have a general "chill" where winter rainfall had been stored away. Overcasts have re-appeared in numbers, and the "chill" sweaters have been coming from the coal man has had fair prospects of selling his coal. The weather has been bad with wind from him in those, seemingly, far off days in May.

Not since June 2nd, 1884, not in 29 years, has the temperature in Wilmington been so low. Fifty-one degrees was the record then. A new one has been established this wonderful week, and the readings have been in the 40's and 50's. The lowest yesterday was 51.

The dispatches have told of snow in the extreme western section of the State—snow, in June, so deep as to cover the pasture and cattle have been penned up on dry feed. Raleigh has recorded a little above 51 degrees and other parts of the State show similar conditions. Side resorts and mountain resorts and resorts have been catching it, and the stranger who left home without anything but his "B. V. D." has been hunting up good drinking whiskey and cozy firesides and foregathered in hotel lobbies for warmth and comfort and the companionship which comes from others when everybody is thinking the same things and feeling the same way.

But cheer up! The forecast today is for a hot and sunny Saturday, with a clear port; moderate northwest wind, and a high of 70 degrees.

THE RECORDER'S COURT

Six Months on the Roads Sentence of Jim McDuffie

Six months on the roads was the sentence of the Recorder in the case against Jim McDuffie, colored, charged with violation of the prohibition law. It was brought out that he had been receiving whiskey in two-gallon lots at intervals of about a week for the past two months, express records being used to show this.

Wallace Miles, colored, charged with larceny, submitted to a charge of forcible trespass and judgment was suspended on payment of costs. Albert Forehand, colored, was acquitted of vagrancy.

LOCAL DOTS.

—The interior of the Central Fire Station on Fourth street is being greatly improved in appearance by the addition of a new coat of paint.

—Adjutant L. Leon announces that Cape Fear Camp, No. 254, United Confederate Veterans, will meet this evening at 8 o'clock at the W. L. I. armory for the last time before the reunion at Gettysburg. All who expect to attend the reunion are asked to be present at the meeting tonight.

—Because he was pursuing a nice pair of pants Edward Newkirk, colored, was carried to the police station yesterday and things looked gloomy for him until he succeeded in getting the trousers from whom he got the pants to vouch for his honesty, when he was released by Chief Williams.

CARNEGIE MEDAL FOR ARTILEY

Dr. C. W. Stiles to Bring Matter to Attention of Hero Commission

Dr. Chas. W. Stiles, surgeon in charge of the U. S. Marine Hospital here, who has from the first shown the greatest interest in the case of John D. Artiley lost his life at Wrightsville Beach while trying to save Mr. Ralph E. Kousse, of the Marine Hospital staff, is gathering data in regard to the matter in order to bring the subject to the attention of the Carnegie Hero Fund Commission, so that the deceased young man may be recognized through his family, proper recognition of his act.

Dr. Stiles, to this end, has addressed the letter given below to all who witness the beach incident. It may be stated that persons surviving incidents of which the Carnegie Commission takes notice, receive a medal and a certificate, and in case they lose their lives, their families receive the recognition made by the commission.

Dr. Stiles' letter is as follows:

"Wilmington, N. C., June 11, 1913.
"To the Hero Witnesses of the Death of John D. Artiley:
"In an effort to obtain recognition from the Carnegie Hero Fund Commission of the heroic act of John D. Artiley, who died while rescuing Mr. Ralph Kousse, the undersigned is desirous of obtaining as many details as possible from all who were witnesses as can be found. Immediately after the incident, I took the liberty of requesting eye witnesses to the rescue, to write me in their own words and style, all the details they are able to recall. No detail is too insignificant to mention.
"Kindly send the information to me, care of U. S. Marine Hospital, Wilmington, N. C.
"Respectfully,
"C. W. STILES,
"In Charge of Hospital."

WOMAN SERIOUSLY CUT

Leah James Uses Knife on Cora Patterson

While standing on the porch of her home, No. 703 Howard street, Cora Patterson, colored, was seriously cut in the back with a knife in the hands of Leah James, colored, yesterday morning about 11 o'clock. The negro is said to have been in a drunken condition, and no motive has been found for the attack. Immediately after the slashing James ran from the house towards the Hilton bridge, and possibly would have made his escape had not one taken the forethought to telephone the bridge watchman to stop him. The negro then turned back and was captured on North Fourth street by Mr. William Coleman and a colored man.

Physicians were summoned to render the necessary surgical aid for the injured woman, and found upon examination that a gash had been made about four inches long and two inches deep just below the left shoulder. The knife penetrated near the heart making it a serious wound. It is thought that she will recover. In the meantime, James is being held without bond.

Soon after the cutting occurred Officer T. M. Hall in response to a message sent to police headquarters, set out of the police motorcycle to make an investigation. When he found that the negro had fled towards the Hilton bridge he followed in that direction. When he reached the plant of the Plate Ice Company he met Mr. Coleman and together they went in search of bringing him to the city. Mr. Coleman was at his home at No. 115 North Fourth street, when he heard cries of "murder" and ran to see what was the matter. Seeing the negro running he stopped him. He states that it was necessary to knock him down twice before he would give up.

The husband of the injured woman, who was away at the time the cutting happened, as soon as he heard about it returned home, got his gun and started out in search for him. Had he not found him there might have been serious consequences.

KNOCKED FROM HIS BICYCLE

Mr. A. J. Parker in Collision With Horse Wagon—Not Badly Hurt

Mr. A. J. Parker, dealer and dumb man of this city, was painfully hurt yesterday morning at 7 o'clock by being thrown from his bicycle at Third and Walnut streets as the result of a collision with the horse wagon from the station at Fourth and Campbell streets, which was responding to a call sent in from box No. 41. Walker and Markham, who were riding to the James Walker Memorial Hospital for the necessary surgical attention and last night was reported as being in a serious condition. He will be able to be out in a day or so, it was stated.

It seems that as the horse wagon was going southward on Third street, between Red Cross and Walnut on the right side of the street, Mr. Parker on his bicycle was riding in the opposite direction along the left side of the street. Being deaf he did not hear the going of the fire wagon. He was struck by the front wheel of the wagon as he tried to pass in front, knocking him to the ground and bruising him up badly. The fact that Mr. Parker is deaf probably accounts for the accident as the fireman on the wagon was sounding the bell loudly and he had been able to hear he could have easily gotten out of the way, from the statements of eye witnesses.

The alarm that was turned in amounted to nothing, being caused by a cloud of smoke from the building on Water, between Market and Princess streets, which fire raged the building Tuesday night. Chief Schinb had taken the precaution to leave the hose connected so that the fire made no headway. The large quantity of hay stored in the building has made it hard to get rid of the fire altogether.

Spending Vacation Here.

Rev. E. L. Welch, of Altus, Okla., and pastor of the Methodist church at that place, is spending his vacation in the city with his sister, Mrs. J. T. King, No. 217 North Fifth street.

Welch is particularly remembered here for his preaching at the former parsonage of Trinity Methodist church, when he preached Sunday morning at 11 o'clock at Bladen Street Methodist church.

—Hon. J. A. Brown, of Chadbourn, was in the city yesterday on his way to Currie, N. C., where he will attend the Sunday School Convention to be held there this week. Mr. Brown is president of the State Sunday School Association and will make the principal address at the Currie convention.

CHESHIRE-JONES NUPTIALS.

Marriage Yesterday Afternoon of Young Couple—Off on Trip

A pretty wedding was solemnized yesterday afternoon at 5 o'clock when Mr. Thomas J. Cheshire and Miss Annie S. Jones were united in marriage. Rev. J. A. Sullivan, pastor of Brooklyn Baptist church, officiating. The happy event took place at the home of the bride's parents, Mr. and Mrs. W. H. Jones, No. 214 Campbell street. Miss Nannie Harwood, played the wedding march from Mendelssohn as the bride party entered the parlor. Mr. D. H. Jones was best man and Miss Mary Harwood, sister of the bride, was maid of honor. After the ceremony a sumptuous supper was served in the dining room.

The happy couple left on the 6:45 train for Fayetteville to spend a few days with friends after which they will go to the western part of the State to spend a week. The groom holds a position with the Atlantic Coast Line. Both have many friends who will be interested in their marriage.

DRUGGISTS ELECT OFFICERS.

Pharmaceutical Association Meets in Hendersonville Next Year.
(Special Star Telegram.)
Newbern, N. C., June 12.—Today's session of the annual convention of the North Carolina Pharmaceutical Association was fraught with many interesting events, chief of which was the election of new officers and the address of President J. G. M. Gordon, of Clayton. This address was full of many instructive and interesting details and was greatly enjoyed by all who heard it.

A number of interesting papers were submitted and these came in for considerable discussion. Short but interesting talks were made by Mr. Kearney, of Charlotte; Mr. Miller, of Goldsboro; Mr. Greyer, of Morganton; and Mr. Bradham, of Newbern. Following these came the election of officers, which resulted as follows:

President—S. P. Harpe, of Selma.
First Vice President—G. C. Goodman, of Mooresville.
Second Vice President—E. M. Tarlington, of Wilson.
Third Vice President—E. G. Birdsong, of Raleigh.
Treasurer—G. E. Burwell, of Waynesville.
Secretary—J. G. Beard, of Chapel Hill.

F. B. Hays, of Oxford; W. W. Horne, of Fayetteville; J. E. Shell, of Lenoir; P. W. Vaughn, of Durham; and H. T. Hicks, of Raleigh, were elected as delegates to the American Pharmaceutical Association.

Raleigh, Salisbury, Durham and Hendersonville wanted the next convention, but after considerable discussion and consideration the committee on time and place decided on Hendersonville.

The programme for tomorrow consists of a trip through the inland waterway canal on the revenue cutter Pamlico. Owing to the inclemency of the weather, it has not been fully decided whether this will be carried out.

W. A. MONTGOMERY CHAIRMAN.

Gettysburg Battlefield Commission Meets and Makes Plans.
(Special Star Telegram.)
Raleigh, N. C., June 12.—Hon. W. A. Montgomery, former Associate Justice of the North Carolina Supreme Court, was tonight made chairman of the North Carolina Gettysburg Battlefield Commission, provided for by the last Legislature to locate and properly mark the important and "farthest to the front" positions occupied by North Carolina regiments and brigades in that great battle.

The members of the commission include the North Carolina Historical Commission. The commission decided to send a special committee to Gettysburg, June 17th, headed by Chairman Montgomery, to stake off in a preliminary way these positions of North Carolina troops and arrange for suitable temporary markers to be in position during the semi-centennial celebration, July 1st, 2nd and 3rd. Then later permanent markers will replace the temporary ones.

In the meantime veterans who fought at Gettysburg and are in attendance at the approaching celebration will be used to criticize the positions and adjustments will be made in accordance with the most authoritative opinions.

There will be North Carolina headquarters for the celebration and every North Carolina veteran will be urged to indicate his best recollection as to the positions.

The members of the commission to go with Chairman Montgomery for the preliminary work next week are Col. J. Bryan Grimes, Capt. D. C. Waddell, T. M. Pittman, W. F. Utley and possibly others.

ACTION OF COURT APPROVED.

Secretary Daniels Mitigates Sentences Against Naval Officers.
Washington, June 12.—Secretary Daniels today approved the findings of the court martial which tried Captain Roy C. Smith, commanding officer, and Lieutenant W. W. Smyth, acting navigator, and found them guilty of neglect of duty in connection with the grounding of the battleship Arkansas on Ceiba Bank, South of Cuba, several months ago. The Secretary mitigated the sentences, however, so that Captain Smith will lose only ten months in rank instead of twenty, as recommended by the board, and Lieutenant Smyth will lose five instead of ten.

It was further ordered that Captain Smith be continued in command of the Arkansas, and the Lieutenant Smyth be released from arrest and restored to duty. Clemency for the Captain on account of his excellent record, has been recommended by six of the nine members of the court. Rear Admiral Blue, Chief of the Bureau of Navigation and Secretary Daniels' full counsel of aides. Seven members of the court and the Chief of the staff made similar recommendations for the Lieutenant.

\$10,000 FOR MISSIONS.

Woman's Missionary Society of Fayetteville Presbytery Liberal.
Maxton, N. C., June 12.—The Woman's Missionary Society of Fayetteville Presbytery convened for its second day's work at 9 o'clock this morning. The president, Mrs. R. N. Page, conducted the devotional service and made her address to the delegates.

To the great regret of the society and of the public, Rev. and Mrs. Lacy Little, of this city, were unable to give popular addresses today, were detained on account of an illness, and were unable to fill their places on the programme.

The day, therefore, was devoted to business. Reports from the auxiliaries, the delegates' conference, reports from Montreat, and reports from committees were read. After a closing devotional service, the meeting adjourned to meet with the Fayetteville Society next year, many of the delegates remaining to observe and participate in the weekly "Bible reading" of the Maxton church.

The aggregated amount contributed to missions during the past year is approximately \$10,000. Mrs. R. N. Page, of Bliscoe, was re-elected president; Mrs. J. M. McIver, of Gulf, vice president; Miss Elsie Smith, of Fayetteville, recording secretary and treasurer, and Mrs. A. G. Carter, of Sanford, corresponding secretary.

MR. ALEX. PARHAM DEAD.

Postmaster at Parkton Passes—Other Fayetteville News Notes.
Fayetteville, N. C., June 12.—News reaches the Observer here of the sudden death of Mr. Alexander Parham, postmaster at Parkton, on Wednesday night at 9 o'clock. Heart trouble was the cause. The funeral will be held tomorrow at 11 A. M. in the Presbyterian church at St. Paul's.

W. R. Smith, young white man of Fremont, Wayne county, was arrested here this morning and confessed to a shortage of \$20 in his accounts with a firm for whom he collected. He is also charged with the larceny of \$50 from a trunk at his boarding house on Maiden Lane. The trial will be Friday morning.

Local fire insurance agents are preparing a royal welcome for the annual meeting of the North Carolina Fire Underwriters Association here June 26th and 27th.

VOLPLAINED TO DEATH.

Andrew Drew Killed While "Joy Riding" in Biplane.
Lima, O., June 12.—Andrew Drew, pupil of Orville Wright, volplaned to death here this evening in a blazing biplane. Drew was killed as a result of a desire to take "just a little joy ride"—his last words to his partner—in a machine he had not thoroughly tested. His partner in a local school of aviation, J. C. Brabson, had urged him not to make the trip, but Drew wished to try out the biplane.

He fell 200 feet. He was dead when Brabson and several workmen at the Lima State hospital pulled his body from under the wreckage.

Drew and Brabson went out to the aviation grounds about half a mile from the State hospital during the afternoon and Drew and his mechanical assistants set up the machine. It was dusk when they had finished. Drew was anxious to try out the machine and urged Brabson who had made several flights with him, to go along.

"Let's take one little joy ride," he laughed, "and then I'll go and eat with you," said Drew.

Brabson demurred on the ground that it was getting too dark to fly and there were no places suitable for a good landing.

The machine which the aviator used was the one in which Calvin P. Rodgers made the last lap of his coast to coast flight two years ago.

"DOWNHOMER" INDICTED.

Editor Sanders Charged With Violating Postal Laws.
(Special Star Telegram.)
Raleigh, N. C., June 12.—The grand jury in the Federal Court here today returned a true bill against Editor W. O. Sanders, of the "Downhomer," of Elizabeth City, charging him with criminal violation of the postal laws in mailing a recent edition of his publication containing an article headed "Bleese Ought to Be Shot," meaning and clearly specifying in the article that he meant Governor Cole L. Blease, of South Carolina.

Following the return of the true bill by the grand jury, the case is ordered transferred from this court to the term of court to be held at Elizabeth City in October. Sanders is in Washington and will be arrested on his return to Elizabeth City and will doubtless give bond pending trial, as he has in other indictments.

The article that gave rise to the indictment was published soon after the sensational speech by Governor Blease in Richmond at the conference of Governors, and a copy of the "Downhomer" containing it was sent by the private secretary of Governor Blease to the department at Washington. Then it was sent to District Attorney Seawell, of this district, who drew the bill for the grand jury indictment.

RESTRICTION OF IMMIGRATION.

Bill Proposing a Literary Test and Draconic Changes.
Washington, June 12.—The Burnett-Dillingham immigration bill, proposing a literary test and draconic changes in the present immigration laws, will be re-introduced tomorrow by Representative Burnett, of Alabama. Mr. Burnett said a poll of the House shows that it stands nearly 3 to 1 in favor of an immigration restriction measure.

The Senate passed this bill over President Taft's veto in the last Congress, but the House failed to do so by a narrow margin.

The literary test clause of the measure would require immigrants over 16 years of age, to be able to read English or some European language, or dialect. Exceptions would provide for the immediate families of American citizens. Persons who are ineligible for naturalization except those who might come in under existing treaties would be barred.

DURHAM CITY BLOCKADERS.

Two Acquitted and Three Convicted in Raleigh Federal Court.
Raleigh, N. C., June 12.—All the afternoon today was taken up in the Federal Court with the trial of five men charged with operating a big distillery within one mile of Durham and almost in sight of Watts Hospital. The jury acquitted Henry Hicks and convicted his 19-year-old son, Percy Hicks; acquitted W. F. Byrd and convicted William Lipscomb and Eugene Watkins. The still being operated was a 70-gallon affair. Ten gallons of the blockade liquor were found in the house of Henry Hicks, who was acquitted, greatly to the surprise of the revenue officers.

PLANNING TRIP OF INSPECTION.

Committee on Naval Affairs Will Visit Yards on Atlantic Coast.
Washington, June 12.—Members of the House committee on naval affairs are planning a trip of inspection of the navy yards of the Atlantic coast, which may be extended to take in the Mare Island and Bremerton yards on the Pacific, if time permits. The committee probably will spend most of July and August visiting the yards at Portsmouth and Boston.

LOCKS FORMALLY OPENED.

Will Aid Navigation on Missouri River—Dam Complete.
Keokuk, Ia., June 12.—The big locks which have closed Missouri river navigation at this point since last November, were formally opened this morning. The dam has been complete for several days. Two boats, the Sydney, of the Streckfus Line, and the W. H. Hill, of the Wishard Line, entered the locks at the same time.

RACE RIOT AVERTED.

Reports Say Trouble at Bluffton, S. C., Has Blown Over.
Savannah, Ga., June 12.—A special dispatch to the Savannah Press from Beaufort, S. C., states that Sheriff White, with Captain Townsend and a company of the naval militia, who went to Bluffton last night, to assist in preventing a clash there which was reported to be imminent between whites and negroes, returned to Beaufort today and reported they found no evidence of a race riot in Bluffton.

The trouble in Bluffton yesterday was caused by the killing of a negro, who had been arrested on suspicion of attempting to assault a white woman. According to reports the negro was shot when he attempted to escape from his captors.
